## LAUNCH-ing Course Materials into Canvas for Spring 2022

Starting in Spring 2022, Bronco Bookstore will have a new integration from VitalSource in Canvas called Launch Complete that will bring course materials information from our Compare website to students where they're most likely to see it.

With Launch Complete, when a student logs into Canvas they'll see all the materials for all their courses displayed on one screen, no need to search by course. Any Instant Access items will have the "Opt Out" and "Read Now" or "Launch Courseware" button.

Non-IA books will have a button that says "Compare & Purchase" that takes them into our price comparison and shopping tool \*within Canvas\* so they find and buy or rent their textbook, then go back to working in Canvas without having to navigate back to it.

*cont.*

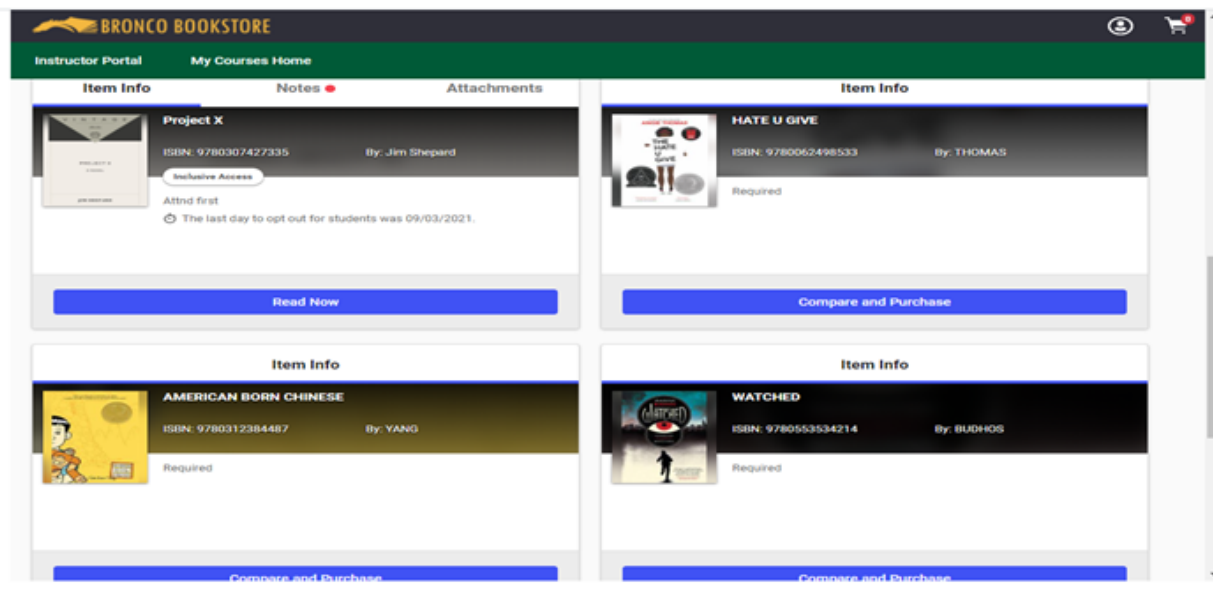

### CONTINUE - LAUNCH-ing Course Materials into Canvas for Spring 2022

Also, provided we have the information in our system, OER textbooks from major OER providers like OpenStax and OpenTextbooks will also show up here. These books will just have a “Read Now” button that takes students straight into the free e-book rather than the price comparison option.

Student Benefits:

- Students visit a single, central location inside the LMS to discover 100% of adopted course materials
- Students’ personalized booklist provides instant access to some materials and fast, transparent comparison shopping for everything else
- Inclusive Access items are available to access on day one with simple opt-out tools within the LMS

### Mock-up of how it will look for CPP

## MORE WAYS TO CREATE/ADD AFFORDABLE CONTENT FOR YOUR COURSES

### Turn your self-authored readers or custom coursepacks into e-books

We've always supported faculty who create their own course materials or curate course-packs through our partnership with Graphics & Printing Services. Now we also have a tool for faculty who want to create digital course-packs, manuals and e-textbooks and publish them to the VitalSource Bookshelf for students: [VitalSource Studio](#).

You can learn more about it at: <https://get.vitalsource.com/what-we-offer/studio>

We're looking for faculty to sign up to use this tool and take their materials digital. These can also be provided to students via Instant Access once they're created!

### Low Cost Courseware for OpenStax Titles

Are you currently using free online textbooks from [OpenStax](#)?

The CSU Affordable Learning Solutions team has collaborated with Verba/Vital Source and OpenStax to create interactive versions of several of OpenStax's most used OER textbooks.

These low-priced interactive books combine the adaptability and affordability of OER with the attractive features of publishers' digital platforms including interactive homework/quizzing and LMS integration. They are in ePub3 format, rather than PDF, with features that benefit both students and faculty. Check out available titles using link below:

<https://broncobookstore.vitalsource.com/textbooks?sort=&term=CSU+Interactive>

If you're interested in using any of these for your course/s, please let us know! These interactive e-books are eligible for inclusion in our Instant Access program.

### Important Upcoming Dates:

*Fall 2021 — Spring 2022*

DATE	
9/7-12/10/21	Regular Fall hours
	M-Th: 8am-6pm
