Priority Start Actions

Have a Pearson account

A Pearson account is needed to create a Pearson course. Verify your existing or create a new Pearson account at console.pearson.com or [create a new Pearson account](#).

See your partner app

You will not be using the Pearson link for this partner integration course.

VitalSource®

If you can't find this app (VitalSource), reach out to your LMS Administrator or request an onboarding session with your Pearson Integration Specialist to make sure this item is in place before you begin.

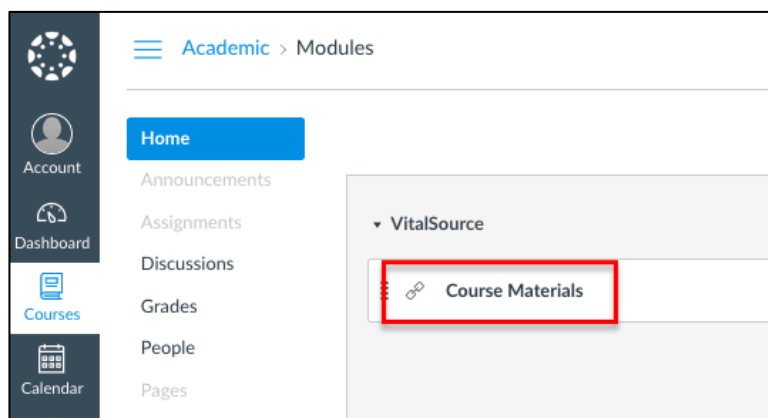

Hide Pearson in Canvas menu

The presence of the Pearson (sometimes Pearson Revel) link, or other Pearson tools/assignments, can be confusing for students and is unnecessary for partner integration. Use the navigation settings in your Canvas course to hide or remove the link from student access.

Launch Pearson Content

1. Enter your Canvas course and locate the VitalSource app.

The name and location of the app may vary based on the set up of the course. In the example below, select the Modules tab. Under Vitalsource Module, select **Course Materials**.

2. Locate the appropriate Pearson content to pair with your Canvas course on My Courses.
3. Select **Launch Courseware**.

Link user accounts, if needed

4. Link your Canvas user account to your existing Pearson account by entering your Pearson Username and Password.
5. Select **Link Accounts**.

A screenshot of the 'Link your accounts' form. The title is 'Link your accounts' with a help icon. Below the title, it says 'To access your Pearson product from Canvas, link your Pearson and Canvas accounts.' There are two input fields: 'Pearson username' and 'Pearson password'. Both fields have red error messages: 'Pearson username is required.' and 'Pearson password is required.' There is a 'Show' link next to the password field. Below the fields is a blue link: 'Forgot your username or password?'. At the bottom, there is a yellow button labeled 'Link accounts' and a blue button labeled 'Create an account'.

6. Select **Continue**.

A screenshot of the 'Accounts linked' confirmation screen. The title is 'Accounts linked' with a help icon. Below the title, it says 'You can access your Pearson product from Blackboard without linking accounts again.' At the bottom, there is a yellow button labeled 'Continue'.

Create or Copy Course

On the Choose new or previously used content screen, do any of:

- Enter a code from another instructor to copy their course.

Enter or paste a code to copy materials and other details from another instructor's course:

Find

- Select Set it up to create a new course for the listed textbook.

Pearson

Choose new or previously used content

 **Revel A Sequence for Academic Writing, 7e**
Laurence Behrens, Leonard J. Rosen
©2018 | ISBN-13 9780134707969

Start with new content
Set it up

Set up a copy of previously used content

- Select a previous course listed under the Set up a copy of previously used content section if you would prefer to copy an existing course with the same course materials.

Set up a copy of previously used content

 **Academic Writing**
07/18/2018 - 12/31/2020

7. Enter the desired course name, and dates.
8. Select **Add**.

Display Name
Enter the name your students see.

Academic Writing

Availability
Select dates content is available to students.

Start Date: 08/12/2018 End Date: 12/31/2018

Cancel Add

Wait until your course is created. You'll receive a "This content was successfully added!" message.

Set Up Grade Sync

Once your course has been created, you will be prompted to set up grade sync.

1. Choose the sync type for your course. You can select individual Assignments scores or a single Overall Score to sync.

Last manual sync: Not yet available

Assignments (0/0) [View](#) Overall score

First select your sync type

2. Select your assignments to sync.

Please note that if you choose to sync assignment scores, you will need to assign content with due dates for the assignments to appear in your list of assignments to sync. You can choose to enable Auto sync or select Sync now to update your Pearson scores immediately.

Grade sync settings Last manual sync: October 22, 2020 1:10:20 PM CLT

Sync type: Assignments (2/2) [View](#) Overall score

Sync method: Auto

Manage your Pearson Materials

After the course is created, the Pearson materials can be accessed from **Launch Courseware** in VitalSource.

1. Select the name of your course or displayed course icon to launch your Pearson course.

The Options menu provides an Open option to launch the course materials, get Help, contact Support or download a Diagnostics .txt file.
