IA Syllabus Info Template

"(This Course)is participating in Bronco Bookstore's "Instant Access" Program, which allows students access to their course materials, in digital format, by the first day of classes at highly discounted prices. Learn more about the program at Bronco Bookstore's FAQ page here: https://www.broncobookstore.com/instant-access.asp

Because these materials are part of Instant Access, students DO NOT need to buy a book or access code from the bookstore or the publisher. Instead, by registering for this course, a materials charge for the cost of these materials (labeled "EBOOKS") is added to your CPP student account. Your access to these materials will be from a link in CANVAS.

You may opt out of any or all of your IA materials at any point up to the deadline (which is the end of the drop/add period) if you want to acquire the materials by other means. If you opt out, the IA e-book charge is automatically reversed. However, if you opt out you will give up access to these materials through the IA program after the last day to opt out has passed. After that cut-off date you are responsible for the charge if you have remained opted in.

Payment for Instant Access e-book charges are due by the end of drop/add and should be paid via Bronco Direct.

The bookstore automatically emails you detailed information regarding the program when you register – please make sure you open any messages from **"Cal Poly Pomona Bookstore <no-reply@verbasoftware.com".**

For support or to ask questions about the program, contact the bookstore by email at **FDNIA@CPP.EDU**
