

## Pairing your WileyPLUS and Bb course

### How does an instructor begin to integrate WileyPLUS with Blackboard?

Instructors must “pair” the WileyPLUS with Blackboard before adding WileyPLUS content and assignments to your Bb course.

1. Log into your Blackboard course and select the course you want to integrate with WileyPLUS
2. To begin adding links to WileyPLUS in Blackboard, navigate to a **Content Area** and select the Tools drop down menu. Depending on your Version of Blackboard, you may also find WileyPLUS listed under Partner or Commercial Content. Click WileyPLUS from the drop down menu.

- Alternatively, you can Pair your course by going to the WileyPLUS Tool from the **Control Panel**. On the left hand side of the screen is the **Course Management** area. Under the **Control Panel**, click **Course Tools** to expand this topic, and locate **WileyPLUS**.

Note: If you do not see WileyPLUS listed, click Customizations from the Control Panel list, and select Tool

Availability. Locate the WileyPLUS entries and make sure that the checkboxes for WileyPLUS are checked.

If WileyPLUS is not listed as a tool, please contact your Blackboard Administrator to confirm that the WileyPLUS Integration Building Block for Blackboard has been installed, configured, and is available.

3. Click the **Get Started with WileyPLUS**

**WileyPLUS Help & Support**  
*Need help? View the WileyPLUS Help site.*

**Get Started with WileyPLUS**  
*Enter the WileyPLUS Product ID to be associated with your Blackboard course.*

4. If you were provided with a Product ID (from your Wiley Account Manager, Implementation Specialist or colleague): enter it in the input box. Otherwise, click the **Browse** link below this field to select your textbook from the **WileyPLUS Course catalog**. After you complete your request for a Product ID, it will be displayed on the screen; after the Product ID has been entered in the input box, click the **Submit** button.

Note: Your Product ID is: **EPROF14330**
